

Hard rock Los Cabos

- Great beach for beach walkers but not swimmable
- Location feel remote - it is located in the residential area of Diamante. Golf course and homes. Area is still developing. About 20-25 minutes to get to Cabo San Lucas. Taxi would be between \$50-60 each way.
- 45-60 minutes from the airport depending on traffic
- Large resort but very walkable and feels compact compared to Hard Rock Rivera Maya and Hard Rock Punta Cana
- Food was very good for the most part - only a couple of dishes I didn't care for but the rest of the food was above average for a Hard Rock
- Service was excellent - only issue was getting a drink at the Tepanyaki restaurant the first night. The server took a long time but was apologetic. Otherwise service was good.
- Housecleaning missed one night turndown service but otherwise was on top of it
- Great wedding locations and, since the beach is not swimmable, beach weddings would feel more private than at other resorts. Not many people go on the beach. There are also other private areas for a ceremony and/or reception.
- Rooms are very spacious and most have an ocean view

Los Gallos Terrace (below) - \$12/pp extra fee
Only available for cocktail and reception
Above Los Gallos restaurant

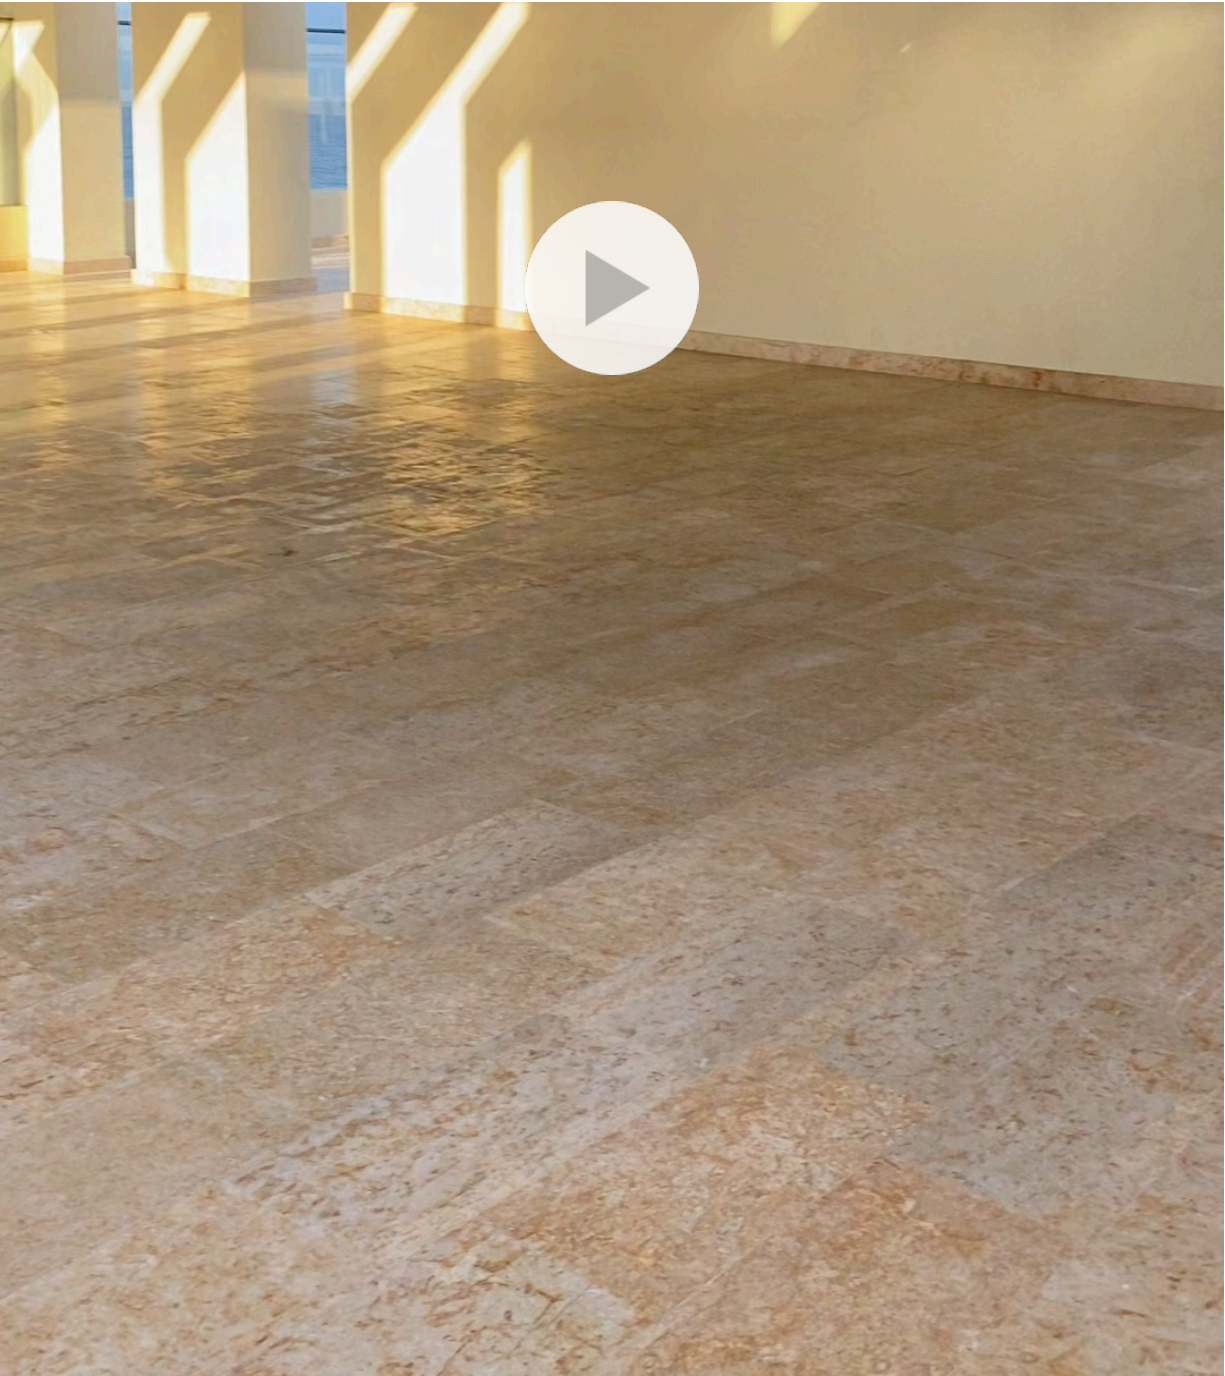

Up to 4 weddings per day
