

## **Sandos Finisterra**

-Location is great for clients who want direct access to downtown Cabo San Lucas and marina area

-definitely a moderate hotel for people on a budget. Did not see the original/older rooms but saw the newer rooms built after sandos took over hotel. These rooms are mountainside overlooking ocean - Resort is built into mountainside. rooms are decent, with some nice touches, but I would not book original rooms if these are the newer rooms. She did say there are plans to renovate the original rooms/resort area but didn't give me a timeline

Nice wedding locations/private terraces for ceremony and receptions
